Projects

○ Cura Mobile App

Technologies used: React Native, Java Spring Boot, Supabase, AWS

- Developing a mobile application that streamlines care coordination among caregivers, family members, supported persons, and healthcare professionals.
- Developed caregiver support features, including a support chat and community forum for collaboration and knowledge sharing.

○ Website Portfolio

Technologies used: React, NetJS, Supabase, AWS

- Developed a full-stack personal portfolio website to showcase projects, technical skills, resume, and professional experience.

- **Nail Salon Website (Real Client Project)**
Technologies used: Bootstrap, HTML, CSS, JavaScript, PHP, APIs (Instagram, Google Maps, Square), phpMyAdmin
 - Developed a responsive nail salon website with **Bootstrap, PHP**, and integrated **third-party APIs** (Instagram, Google Maps, Square).
 - Built back-end systems for **bookings, customer management**, and **database integration**, **collaborating with the client** to meet business needs.
- **Mobile App for To-Do List**
Technologies used: Dart, Flutter, Firebas. e, APIs (Google Maps, Motivational Quotes), Collaboration Features
 - Developed a cross-platform To-Do app using **Flutter** and **Dart**, with **Firestore** for real-time data syncing.
 - Added real-time collaboration for task management and integrated APIs for **motivational quotes** and **Google API** for nearby cafes and libraries.
- **Travel Agency Website**
Technologies used: HTML, CSS, JavaScript
 - Developed a responsive, user-friendly website for a travel agency with interactive features like booking forms and dynamic content using JavaScript.

Work Experience

Food Festival All-Rounder Old Port Montreal Food Festival, Montreal, QC	Summer 2024
On-Call Assistant Fleuriste Lotus Blanc Bach Lien	2024
Fulfilment Associate Goodfood -St. Laurent, QC	December 2020 to May 2023
General Worker NEWREST-Dorval, QC	January 2020- March 2020

Extra-Curricular Activities & Certifications

- **ConUHacks 9 at Concordia University**
Participated in **ConUHacks 9**, strengthening knowledge of **React Native** through hands-on development and engaged with **sponsors** to learn about their career paths and gather valuable **tips** for **professional growth**.
- **McHack 12 at McGill University**
Participated in **McHack 12**, applying **mobile development skills** using **React Native** to build a project within 24 hours. Attended a **Cybersecurity workshop** and connected with fellow developers and industry professionals, expanding my network in the tech community.
- **CUSEC 2025 (Canadian University Software Engineering Conference)**
Attended **CUSEC**, gaining insights on career growth, job hunting, and work-life balance, while making valuable connections at the career fair. Motivated to continue learning and engaging with the tech community.

- **Floss Day 2023 & 2024 Attendee**
Attended the **Floss Day** event in both **2023 and 2024**, engaging with the open-source community and learning about the latest developments in free and open-source software (FOSS).
- **Robotics Club – Website Developer**
Contributed to **designing** and **developing** the **website** for the **CRC Robotics Competition** using **Vue.js**, featuring this year's 'Plants vs. Zombies' theme. The site provided information about the robot, the team's journey, and videos related to the team.
- **Certificate, McGill Computer Science Summer Camp 2024**
Received a certificate from the **McGill Computer Science Summer Camp 2024**, where I participated in various workshops and activities to enhance my programming and problem-solving skills.
